Mockup Materials Cart

Who?
The materials are simple to use so that everyone can contribute regardless of prototyping experience!

What?
- Scissors
- Pipe Cleaners
- Rubber Bands
- Glue Sticks
- Sketch Paper
- Colored Paper
- Post-Its
- Felt
- Yarn
- Popsicle Sticks
- Snap Blades
- Tape (Any type is fine)
- Pompons
- Cardboard
- Sharpies
- Crayons
- Office Supplies
- Plastic Bowls and Cups
- Circuit Components
- Anything else that is easy to use!

When?
You can use the Mockup Materials Cart to quickly and easily build rough models of ideas. It’s perfect to use during brainstorms and other creative activities!

Where?
The Mockup Materials Cart is built on casters so you can take it anywhere you might need materials for creative problem solving. Roll it with you and always have the ability to build!

Why?
If a picture is worth 1,000 words, a 3D mockup might be worth 10,000! Bringing ideas to life is easy to do and a powerful technique for sharing.

How?
Find a cart by searching for bin box shelving online and fill it with all of your favorite mockup supplies!

Segal Design Institute
Northwestern University
**Sourcing:**
- Search [bin box shelving](#) online
- Look for carts that are:
  - Two-sided
  - Around 5’ tall
  - Not too wide that they won’t fit through a doorframe
- Purchase omnidirectional casters
- Buy transparent bins in various sizes
- Label each bin

**Recommendations:**
- For complete cart:
- For cart and bins sold separately:
